By Jas. Langsdale, Postmaster at Green castle, Ind., a Gentleman who Has Had Something to Do with the Movement-Complaints of Negroes.

He States that Fifty White Men Have been Brought into the State as a Partial Offset to the Cloud of Blacks from the South -Voorhees.

Washington, March 20.—James Langs-dale, postmaster at Greencastic, Indiana, testified before the exadus committee to-day: testified before the exadus committee to-day:
The invariable complaint of the colored emigrants was that they were unable to get a fair living in the south, on account of bad laws and cheating; there was also complaint about their political rights; some poor whites were among the emigrants; the negroes paid their own way, and no political purpose was served by the exadus. The witness read extracts from letters from farmers and manufacturers, asking him to get them colored laborers; labor was scarce and wages high; some of the writers were well known Democrat; the Greenback candidate for governor.

TREASURY DEPARTMENT, Office of Internal Revenue, Washington, D. C., January 28, 1880.

Messrs Lawrence & Martin, 111 Madison street, Chicago, Ill.—Gentlemen; I have received "a certified formula," giving the ingredients and relative proportions used in the manufacture of an article which you advertise and sell under the name of "TOLU, BOCK AND RYS." This compound, according to your formula, in the opinion of this office, would have a sufficient quantity of the Balsad Of TOLU to give it all the advantages ascribed to this article in pectoral complaints, while the Whisky and the Syrup constitute an emulsion rendering the compound an agreeable remedy to the patient. In the opinion of this office, an article compounded according to this formula, may properly be classed as a medicinal preparation under the provisions of Schedule A, following Section 3427, United States Beviced Statutes, and when so stamped may be sold by Druggists, Apothecartes and other persons, without rendering them liable to pay special tax as liquor dealers. Yours respectfully.
